

NO POINT STARS The placement of colors is up to you

Colors: True Blues (light, medium, or dark)

Red

Light (any shade from white to light tan)

Squares $4\frac{1}{2}$ " 8 for the outer square, 1 for the center

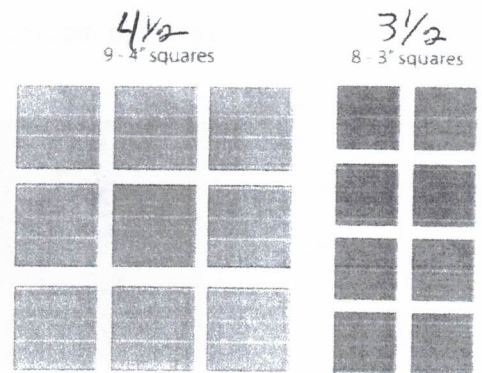

$3\frac{1}{2}$ " 8 for the star points

The unfinished size will be $12\frac{1}{2}$ ", 12 inch finished. You must cut $4\frac{1}{2}$ " and $3\frac{1}{2}$ " Squares

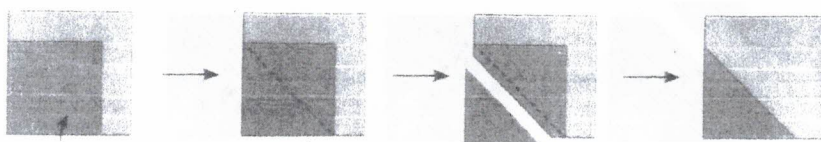

Red/white Blue

1. To make one block gather 8 of the $4\frac{1}{2}$ " squares from one of the colors of fabric (in this case green), and from the other color of fabric, gather 1 square $4\frac{1}{2}$ " and 8 squares $3\frac{1}{2}$ ".

I mixed up the center squares in my quilt with the other fabrics to add interest to the blocks.

2. On one of the outer $4\frac{1}{2}$ " squares, place a $3\frac{1}{2}$ " square in the bottom corner RST as shown. Draw a diagonal pencil line from corner to corner on the wrong side of the $3\frac{1}{2}$ " square as shown (see my note down below for a much easier way to do this!). Sew on the pencil line. Trim the corner leaving $\frac{1}{4}$ ", and press the corner out.

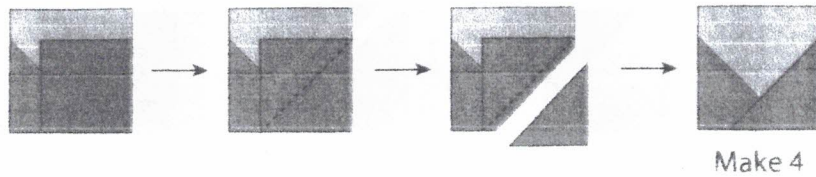

pencil line

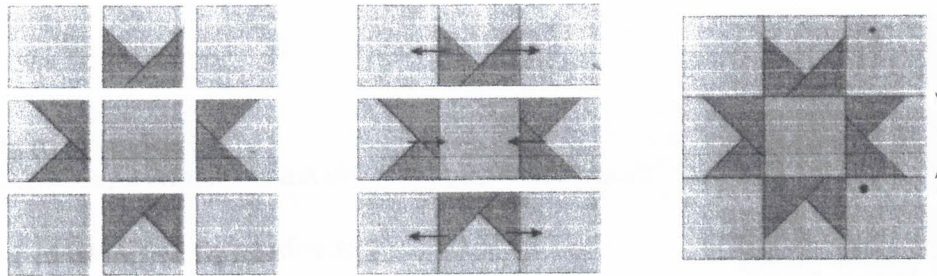

Handwritten notes:
I mixed up the center squares in my quilt with the other fabrics to add interest to the blocks.
I mixed up the center squares in my quilt with the other fabrics to add interest to the blocks.

still measure 4" x 4", square up as needed.

Repeat to make 4 of these units.

4. Layout the block units as shown. Sew the units into 3 rows as shown, press the seams in the direction indicated by the arrows in the image. This will allow the seams to nest when you sew the quilt together.

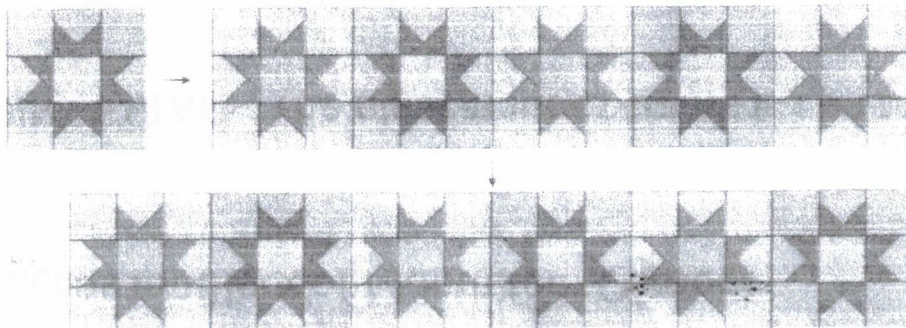

The blocks should measure 11" square. Repeat to make the following number of blocks:

| | Crib | Throw | Twin | Queen | King |
|-----------------|------|-------|------|-------|------|
| Blocks to make: | 20 | 30 | 48 | 81 | 90 |

1. Layout the blocks into rows as shown in the table below and layout diagrams. If you are using two colors, alternate between the two colors as you layout your blocks as I did. Rotate the blocks as needed so that the seams of adjacent blocks will nest!

| | Crib | Throw | Twin | Queen | King |
|---------------------|------|-------|------|-------|------|
| Blocks in each row: | 4 | 5 | 6 | 9 | 10 |
| Number of rows: | 5 | 6 | 8 | 9 | 9 |

Shown in a Throw size
