## Pinwheel Center (6 1/2")

1. Cut the light and dark 4 1/4" squares into quarters diagonally.

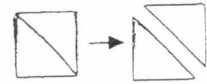

2. Sew a dark and a light triangle together as shown.

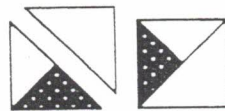

Make 4

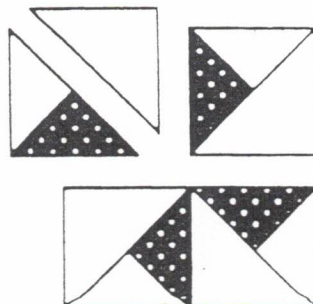

3. Cut the two (2) light 3 7/8" squares in half diagonally.

4. Sew the four (4) light half square triangles from step three (3) to the four light and dark half square triangles made in step two (2). Make four (4).

5. Sew the four units together as shown in the diagram below.

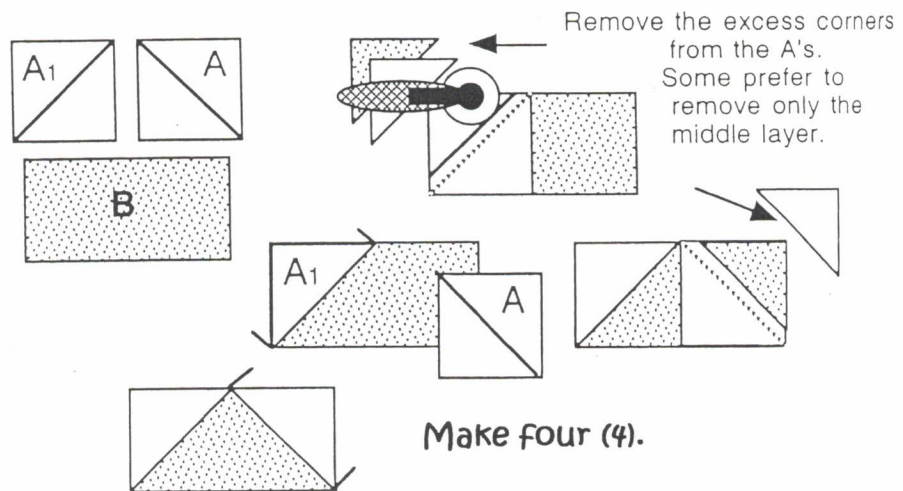

## Flying Geese

Use the four light  $3\frac{1}{2}'' \times 6\frac{1}{2}''$  rectangles and the eight dark  $3\frac{1}{2}''$  squares.

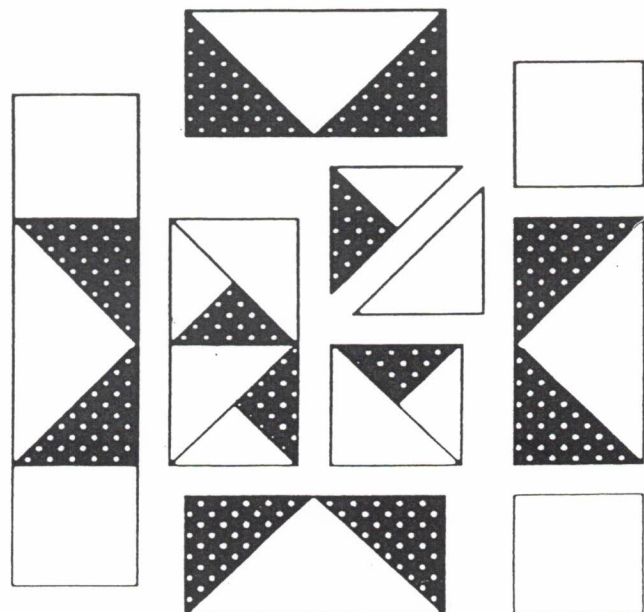

On the wrong side of the 8 dark squares, draw a diagonal line from corner to corner. This is the sewing line.

Place one square at one end of the light rectangle with the diagonal line going from an outside corner to the center of the opposite side. Stitch on the diagonal line. Remove the excess corners. Some people prefer removing just the middle layer.

Repeat the process on the other end, sewing in the opposite direction. Diagram below.

Assemble block as shown below.
